

International payments to **INP – Toulouse** just got easier

business.westernunion.fr

INP-Toulouse is working with Western Union Business Solutions to provide international students an alternative method for paying student bills. This option allows you to pay your student fees in the currency of your choice and provides you with a simple and secure way to initiate a payment electronically.

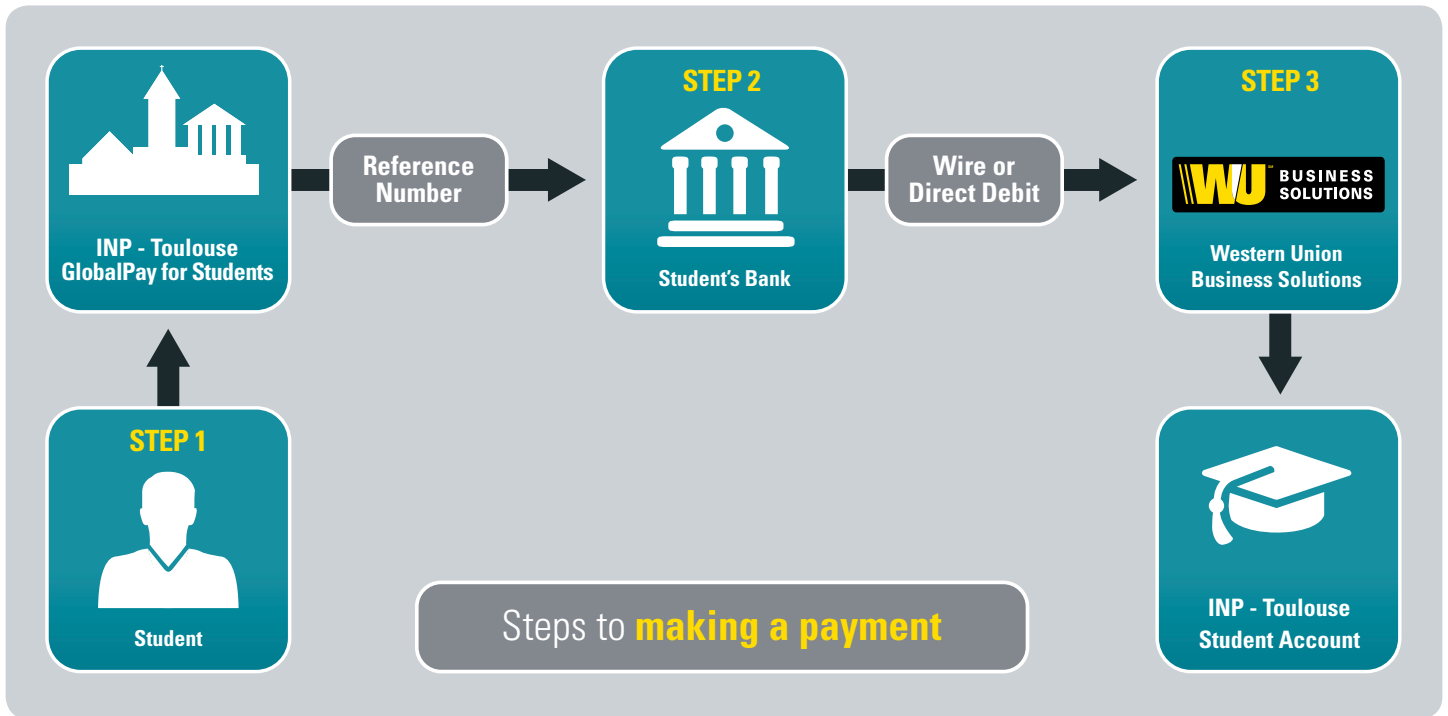

You have a lot to think about when applying to a university abroad, including entering international markets to make payments for tuition and other university fees. Some of the complications you can encounter using current payment processes (international wire transfers or bank drafts) include:

- Payments are in a currency different from your local currency
- International wires are costly due to high banking fees
- Retail exchange rates are high
- Payment details provided by your banking institution to the university are sometimes incomplete, which can cause additional time for the university to apply the payment to your student account

Advantages of using the student payment portal include:

- You can easily make a bank-to-bank transfer by accessing <https://student.globalpay.wu.com/geo-buyer/inpt>
- You make your payment in the currency of your choice which will then be converted into euros.
- There are NO additional transaction charges on FX payments from Western Union Business Solutions or INP-Toulouse, though you may be charged a transaction fee by your bank.
- The exchange rate is valid for 72 hours after you have initiated the transaction. Your confirmation and payment must be received by Western Union Business Solutions within that period.
- The exchange rate is often competitive when compared to retail rates of your financial institution and for many students their bank service fees are also reduced because the transaction is being initiated as a local transfer.
- Payments will include your reference information and will ensure that your payment reaches your student account quickly.
